

## Clean Seas Ocean Summit

**Date: Thursday 15 August 2019**

**Venue: Ferjekaia**

**Time: 08:00 – 12:00**

UN Environment launched the Clean Seas campaign in February 2017, with the aim of engaging governments, the general public and the private sector in the fight against marine plastic pollution. Over the next five years (2017-2021) the campaign will address the root-cause of marine litter by targeting the production and consumption of non-recoverable and single-use plastic. To do this effectively, citizens need to be aware, engaged and active in addressing the problem in their daily lives and beyond.

This event will highlight the role of individuals, organisations and businesses in reversing the effects of marine litter in the ocean.

### Programme

08:00	<b>Breakfast</b>	
08:35	<b>Welcome Remarks</b>	<b>Peter Harris</b> Managing Director GRID-Arendal
