safe_water10.pdf 2005-09-06 02:24

## Lack of access to safe water

An improved water source includes wells or public pipes that provide at least 20 litres per day, accessible within a few minutes walk.

Developed countries (Europe, North America, Australia etc.)
0 million people

Asia, and the Middle East
1.1 billion people

China
India
Afghanistan
Pakistan

Latin America and the Caribbean
70 million people without an improved water source

Mexico
Brazil

Africa
320 million people

Nigeria
Ethiopia
Congo DPR
Tanzania

**Share of total population without an improved water source**

< 30 %
30 - 45 %
45 - 60 %
> 60 %

**Countries are proportional to the number of people without an improved water source**

= 1 million
= 10 million
= 26 million
