10-11_nuclear-ferghana.pdf 2006-12-08 10:10:10

Radioactive waste hotspots and transboundary pollution in Central Asia's Ferghana Valley

Poorly managed waste sites
- Mining tailing ponds and piles
- Municipal waste
- Pesticides and hazardous chemicals

Waste from polluting industries
- Metallurgical industry
- Oil and coal production

Radioactive material processing and storage sites
- Uranium tailing or radioactive processing
- Closed uranium mine
